

Transforming Provider Network Management

Virsys12's V12 Network offers complete Provider Network Management, from initial application and credentialing to contracts with fee schedules. It is built on the robust Salesforce.com platform.

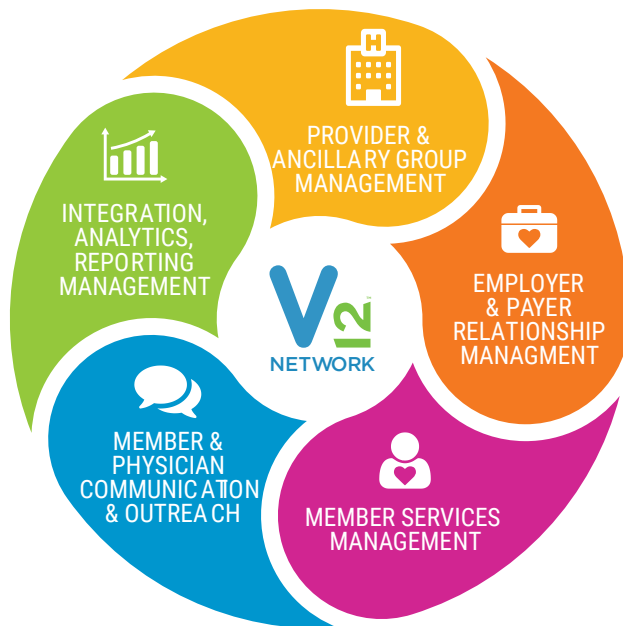

Key Benefits

- ✓ Lower Administrative Costs
- ✓ Increase Provider Directory Accuracy
- ✓ Elevate Real-Time Analytic Reporting
- ✓ Implement In Weeks
- ✓ Integrate with Salesforce

“The partnership with Virsys12 and V12 Network allowed MissionPoint to scale rapidly and effectively during a time of very high growth. The use of scalable and repeatable technology makes it possible to expand with minimal incremental technology cost each time we enter a new market.”

Michael Gardner, Vice President, MissionPoint Health Partners
